

Floor nailer, pre-engineered

MODEL 200

Specs

Pneumatic.

The Powernailer® Model 200 mallet activated tongue and groove flooring nailer has been designed to handle the specific needs of installing tongue and groove engineered flooring. This nailer can handle 5/16" to 9/16" tongue and groove engineered flooring using easy-to-change adapter plates and shims. This model uses Powernail's new E-Powercleats®, available in 1", & 1-1/4". E-Powercleats® have been designed to hold engineered flooring securely while reducing the risk of damaging the flooring's delicate tongue.

We do sell the 1" and 1-1/4" nails. One box contains 2000 nails and will nail approx 200 sq ft. Comes with a rubber mallet.
